

## WBBROC's Regional Priorities for October 2020 State Election

These regional priorities have been developed from the 10 July workshop's raw data (where we ran out of time!) and are meant to assist us with the October 2020 State Election only. Further work will be done in the near future to develop more focused and longer-term regional priorities.

**Please note:** The Queensland Treasurer at the recent ROC Assembly was very clear that any State Government funding will be strongly focused on:

- Prioritising job-creation projects
- Building infrastructure that will enable the economy to move forward
- Backing manufacturing and small business.
